3. Texto completo resuelto

My granny is 93 and she's come to live with us at our house. We're all pleased because we love having her near us. She's a very independent person and until this year, she (1) refused to move to the flat on our ground floor. But last month she suddenly (2) changed her mind and I (3) asked her why. She explained that for years, nobody in her village (4) would lock their front doors and the place (5) used to feel safe, but last month (6) she met a neighbour in the street when she (7) was walking home from the shops and (8) heard some bad news. Thieves (9) were breaking into people's houses while they (10) were sitting in their back gardens. She (11) realised that she (12) didn't want to live alone any more. She (13) isn't used to being in the town yet, but it's not as difficult as she (14) thought it might be, and she loves seeing us more often.

Por qué se elige cada verbo

refused Una negativa o situación pasada ya acabada; Past Simple.

changed «Last month» y «suddenly» indican un cambio puntual.

asked Preguntó una vez, no era un hábito repetido.

would lock Con «for years» expresa la costumbre de cerrar con llave; con «nobody», la ausencia de esa costumbre.

used to feel Feel describe un estado habitual anterior; «would» no suele expresar este tipo de estado.

met Se encontró con una persona en un momento concreto.

was walking Estaba caminando cuando ocurrió el encuentro.

heard Oyó una noticia: hecho puntual.

were breaking Los robos estaban ocurriendo durante ese periodo.

were sitting Acción simultánea en curso: estaban sentados en el jardín.

realised «Realise» se utiliza normalmente como verbo de estado o percepción, aquí cambio puntual.

didn't want «Want» es normalmente estativo; Past Simple negativo.

isn't used Be used to + -ing significa estar acostumbrado, y «yet» indica que todavía no lo está.

thought Describe lo que había pensado, no un proceso en desarrollo.

4. Be / Get used to: soluciones

isn't used to No está acostumbrada a acostarse tarde; be used to + -ing.

are used to Los niños ya están acostumbrados a ir en autobús.

is used to Es su costumbre actual: dar órdenes.

wasn't used to En aquel momento no estaba acostumbrada al café fuerte.

Are you getting used to Pregunta por el proceso de adaptación que sigue en curso.

got used to Se acostumbró al hotel en el pasado.

5. Past Simple / Past Continuous: soluciones

was working / was playing Ambas acciones estaban ocurriendo a la vez.

was looking / stopped Acción de fondo interrumpida por un hecho puntual.

went / was having La luz se apagó durante la fiesta.

went / stood Dos acciones sucesivas y terminadas.

was hoping / said Una expectativa en curso frente a un resultado puntual; «hoped» también puede ser posible.

6. Used to: frases corregidas

When I was a child, I used to go camping. Used to + infinitivo: costumbre del pasado.

My parents often used to take me to the zoo. «Often used to» es el orden más habitual; «used to often» también se oye, aunque el libro pide corregirlo.

They didn't use to help their parents with housework, but now they do. Después de «didn't» se emplea «use to», sin -d.

We went to the beach every day last summer. «Last summer» delimita un periodo concreto terminado; aquí el Past Simple es la opción natural.

Helen is a teacher at a primary school, so she teaches children. Enseña actualmente: Present Simple, no «used to».

I would like to be a sports instructor because I used to train tennis players before I came to England. «Used to train» indica hábito pasado; «was used to training» indicaría estar acostumbrado.

Respuestas y explicaciones: ejercicio 1

Primero intenta resolver los huecos del texto de arriba. Aquí tienes la solución corregida: cada verbo de la lista se utiliza exactamente una vez. El número 3 es explained y el 17 es read.

The mystery of Kaspar Hauser began in Nuremberg, Germany, about 200 years ago. One morning, the people of the town found a young man standing alone in the square. He was holding a piece of paper in his hand. The paper explained only that he was the son of a soldier. Kaspar knew how to say a few words and when given a paper and pencil he wrote his name, but he seemed completely ignorant about everyday life. At first he ate only bread and drank only water, but he gradually got used to ordinary meals. He also learnt to talk properly. The real truth about his birth remains a mystery, but it is probable that his father kept him in one small room for the whole of his early life. He fed him on bread and gave him water to drink. Kaspar never went out, he never spoke to anyone or met other children. In spite of his extraordinary childhood, Kaspar was not stupid. He read books and had discussions with teachers and philosophers. News about Kaspar spread through Europe and visitors came from abroad to meet him.

Used to y get used to

Used to, would, be used to y get used to · Easy English GRAMMAR · B1-B2
Used to, would, be used to y get used to: diferencias y ejercicios

Cuatro estructuras parecidas que expresan cosas distintas: hábitos pasados, estados anteriores y adaptación.

9 de octubre de 2026

1. Used to + infinitivo

Describe hábitos o estados habituales del pasado que ya no son ciertos o que contrastan con el presente.

I used to walk to school. Antes iba andando al colegio (ahora ya no).

She used to live near the sea. Antes vivía cerca del mar.

Negativa: I didn't use to drink coffee. (Antes no bebía café). Pregunta: Did you use to play tennis? (¿Solías jugar al tenis?). Después de did escribimos use, sin -d.

2. Would + infinitivo

Se usa para acciones repetidas en el pasado, especialmente al contar recuerdos. No se emplea normalmente para describir estados pasados como know, be, have (posesión) o live.

Every summer, we would visit our grandparents. Todos los veranos visitábamos a nuestros abuelos.

Para el estado «Antes era tímido», escribe I used to be shy, no «I would be shy» con ese significado.

Ojo: would también expresa condicionales y otras ideas; aquí hablamos solo de su uso para hábitos pasados.

3. Be used to + sustantivo / verbo en -ing

Significa estar acostumbrado a. El verbo be puede cambiar de tiempo (am/is/are/was/were).

She is used to getting up early. Está acostumbrada a levantarse temprano.

They weren't used to the cold. No estaban acostumbrados al frío.

La palabra to aquí es una preposición: por eso escribimos to getting, no «to get».

4. Get used to + sustantivo / verbo en -ing

Indica acostumbrarse: el proceso de adaptación, no simplemente el estado de estar acostumbrado.

I'm getting used to my new job. Me estoy acostumbrando a mi nuevo trabajo.

At first the hotel felt strange, but I soon got used to it. Al principio el hotel me resultaba extraño, pero pronto me acostumbré.

5. Comparación rápida

Estructura | Significado | Ejemplo |

used to + verbo base | Antes solía... | I used to cycle. |

would + verbo base | Acción habitual pasada | We would cycle every Sunday. |

be used to + -ing / nombre | Estar acostumbrado | I'm used to cycling. |

get used to + -ing / nombre | Acostumbrarse | I'm getting used to cycling. |

6. Errores frecuentes

? I am used to wake up early.

? I am used to waking up early.

? Did you used to go there?

? Did you use to go there?

? I would have a small house when I was young. (describiendo posesión pasada)

? I used to have a small house.

? She didn't used to like tea.

? She didn't use to like tea.

7. Ejercicios originales B1-B2

Completa con la forma correcta de used to, would, be used to o get used to. Fíjate en el significado y en el tiempo verbal.

When I was little, I _____ (play) outside every evening.

My new colleague is from Finland, so she _____ (work) in cold weather.

At first, I couldn't sleep in the city, but I gradually _____ (live) with the noise.

My grandparents _____ (tell) us stories every winter.

He _____ (not / like) vegetables, but now he loves them.

Are you _____ (drive) on the left yet?

Did your sister _____ (live) in Manchester?

After a month, they finally _____ (wake up) early.

Ver soluciones y explicaciones *used to play* (también *would play* si se cuenta como hábito repetido).

is used to working - ya está acostumbrada.

got used to living - proceso de adaptación terminado.

would tell (también *used to tell*) - repetición habitual.

didn't use to like - estado pasado en contraste con ahora.

used to driving - detrás de *are you*, pregunta por estar acostumbrado.

use to live - tras *did*, sin -d.

got used to waking up - llegaron a acostumbrarse.

8. Práctica oral

Habla durante un minuto: ¿qué cosas hacías de niño, cuáles ya no haces y a qué te has tenido que acostumbrar últimamente? Usa al menos un ejemplo con *used to*, *would* y *get used to*.

Well, that's an interesting question. Personally, I think studying online has many advantages. Bueno, es una pregunta interesante. Personalmente, creo que estudiar online tiene muchas ventajas.

On the one hand, it is more flexible and convenient. On the other hand, studying in a classroom allows students to interact with their teachers. Por un lado, es más flexible y cómodo. Por otro, estudiar en clase permite a los alumnos interactuar con sus profesores.

However, I believe that online learning is a great option for people who work. To sum up, both methods have advantages, but I prefer studying online. Sin embargo, creo que el aprendizaje online es una gran opción para quienes trabajan. En resumen, ambos métodos

tienen ventajas, pero prefiero estudiar online.

10. Consejos y errores frecuentes

Empieza por cinco expresiones: Well... · Let me think... · In my opinion... · However... · What I mean is...

Ojo con la gramática: Although introduce una oración («Although it was raining...»), mientras que despite suele ir seguido de sustantivo o verbo en -ing («Despite the rain...» / «Despite raining...»). On the other hand contrasta dos aspectos; however también puede introducir una objeción. En una conversación informal no abuses de conectores muy formales como moreover o nevertheless.

Hacer pausas no significa hablar mal. Practica enlazando una opinión, una razón, un contraste y una conclusión.

Mini ejercicio

Responde en voz alta: Should students use smartphones at school?

Intenta incluir «In my opinion», «On the other hand», «Let me think» y «To sum up».
